

StormShield™

Standard Ice & Water Protector >>>

“Invisible” protection against roof leaks.

IKO StormShield™ Standard Ice & Water Protector is an economical modified bitumen roll roofing product with a self-adhesive backing protected by a silicone-treated release sheet, which is easily removed during installation.

- > Helps prevent water leakage due to ice dams and wind-driven rain
- > Improved flexibility for superior performance
- > Slip-resistant surface for safe application
- > Tear-resistant membrane
- > Glass fiber reinforced for extra strength
- > Self-adhesive for watertight sealing
- > Self-sealing around roofing nails
- > Meets most building code requirements

Use IKO StormShield™ Standard Ice & Water Protector on these critical roof areas.

SPECIFICATIONS (approximate)

StormShield^{TM/MC}

Standard Ice & Water Protector / Protecteur standard contre l'eau et la glace

“Invisible” protection against roof leaks.

Une protection «invisible» qui aide à prévenir les fuites.

IKO StormShieldTM Standard Ice & Water Protector is an economical modified bitumen roll roofing product with a self-adhesive backing protected by a silicone-treated release sheet, which is easily removed during installation.

Le protecteur standard contre l'eau et la glace **StormShield^{MC} de IKO** est un produit économique de bitume modifié en rouleau dont l'endos autoadhésif est protégé d'un papier traité au silicone facile à enlever durant l'installation.

- Helps prevent water leakage due to ice dams and wind-driven rain
- Improved flexibility for superior performance
- Slip-resistant surface for safe application
- Tear-resistant membrane
- Glass fibre reinforced for extra strength
- Self-adhesive for watertight sealing
- Self-sealing around roofing nails
- Meets most building code requirements

- Aide à prévenir les fuites causées par l'amoncellement de glace et la pluie balayée par le vent
- Élasticité améliorée témoignant d'une performance supérieure
- Surface antidérapante favorisant la sécurité durant l'installation
- Membrane résistante aux déchirures
- Autoadhésif permettant l'imperméabilisation recherchée
- Autocollant autour des clous à toiture
- Satisfait la plupart des exigences des codes du bâtiment
